

## February House 2019 - 6" Checkerboard

### CHECKERBOARD CONSTRUCTION:

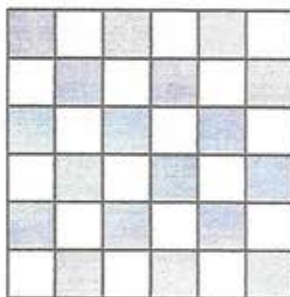

This is a simple checkerboard of 1" squares. Cut 2 - 18" x 1 1/2" strips (one blue and one dark pink). Sew together and cut into 1 1/2" segments.

Sew your 18 - 2 patch units into 4 patches.

Then sew your 9 - 4 patch units together to form your 6" checkerboard block.

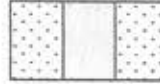

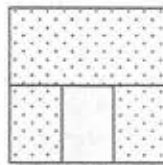

To construct the "chimney strip" of your house, sew a CHIMNEY fabric 2" square to one of the 3 - 3 1/2" x 2" SKY fabric strips. Sew another of the 3 1/2" x 2" SKY fabric strips to the other side of the CHIMNEY fabric 2" square. Now sew the second 2" CHIMNEY fabric square to the other side of this strip. And, finally sew the remaining 3 1/2" x 2" SKY fabric strip to this strip to complete the "chimney strip" of your house block.

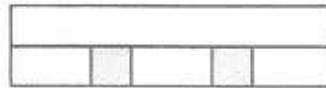

The next will be the front and door of your house. Sew the DOOR fabric 3 1/2" x 2 1/2" strip to one of the HOUSE fabric 3 1/2" x 2 1/2" strips. Then sew the other 3 1/2" x 2 1/2" HOUSE fabric strip to the other side of your DOOR fabric strip.

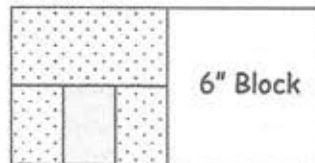

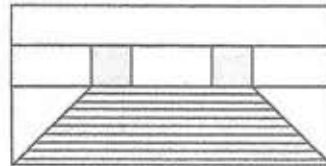

Now, sew the HOUSE fabric 6 1/2" x 3 1/2" strip to the "house/door" unit you just created.

For each house block, sew your top SKY strip to the CHIMNEY strip.

Then add the ROOF strip.

Then sew these two units together to form your house!
