

SEPTEMBER BLOCK – Carol's Star

This is a star named after the designer's sister, I found this on a free star block site and it's one of my favorites.

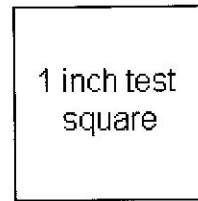

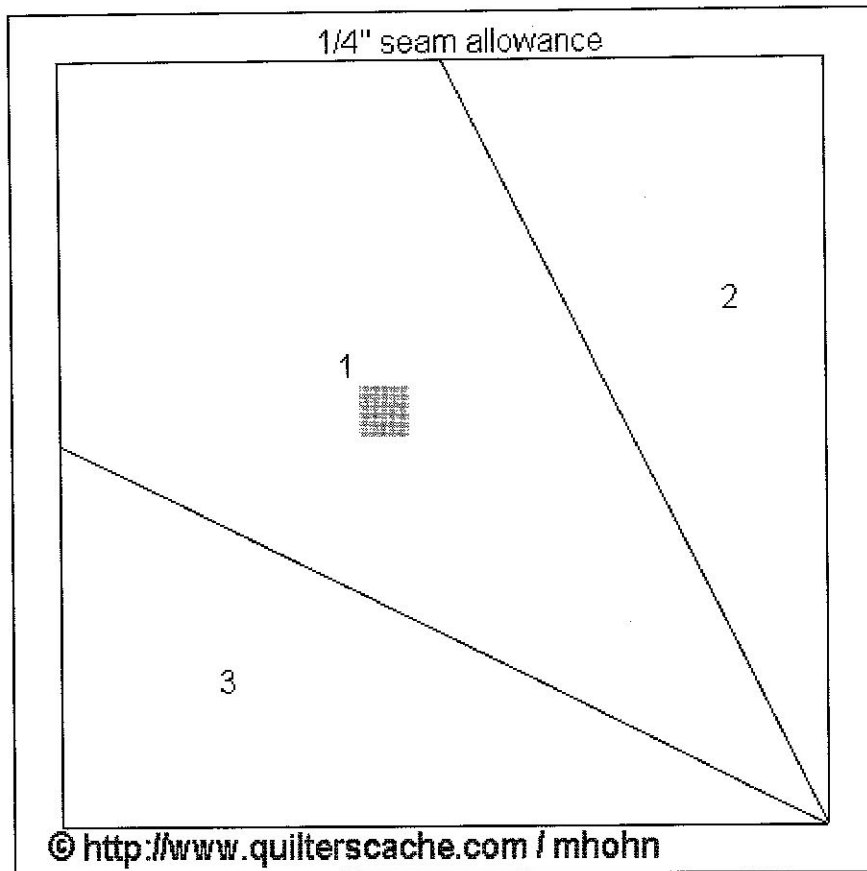

Fat quarters are sufficient.

You will need:

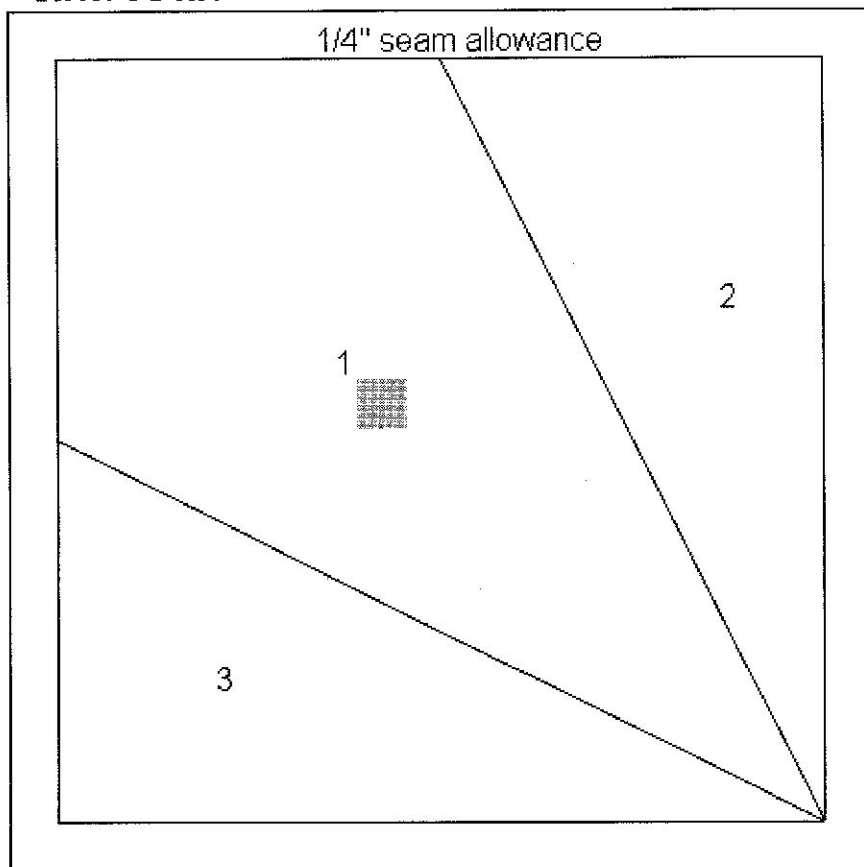

2 copies of A & B, and
1 copy of C – the center.

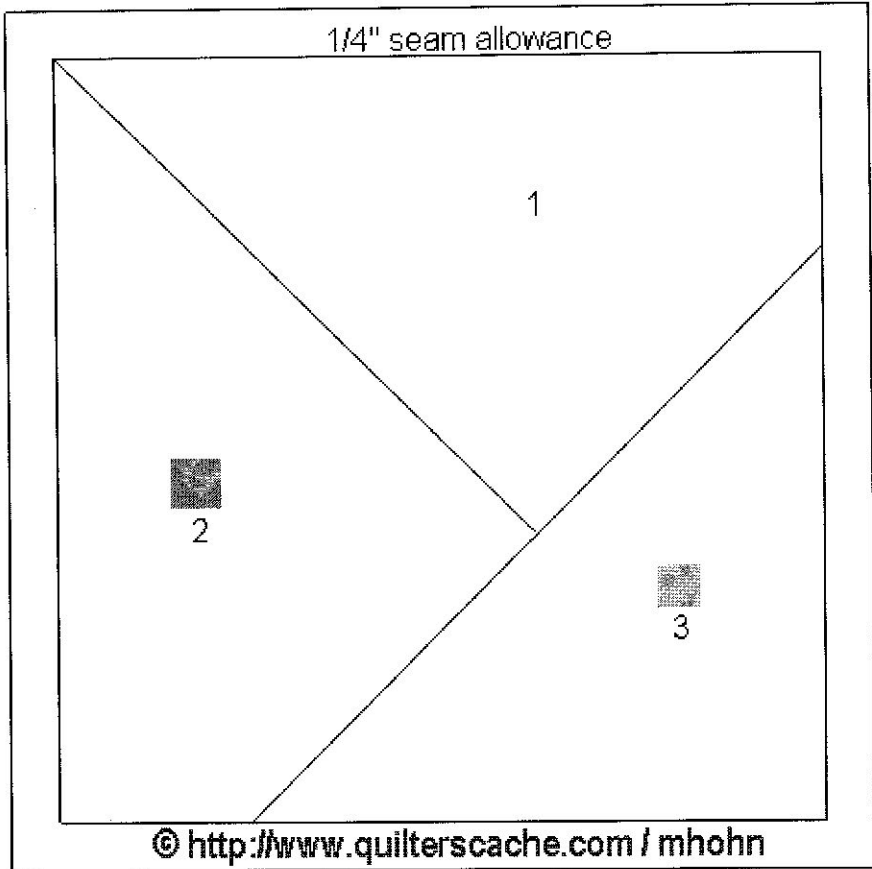

Use very light weight paper. I use Carol Doak's Foundation Paper.

After all units are pieces, make rows, and sew together, alternating pressing directions.
Voila a beautiful star.

Carol's Star

1 inch test square
