Black Cat

finished 8" x 12"

Foundation Paper Piecing (FPP)
Free Pattern By Rose Johnston of
Threadbear Creations.

"Black Cats have long been associated with the supernatural, and Halloween, the night of witches and ghosts, is no exception.

Their nocturnal habits, mysterious demeanor, and ability to see in the dark have made them symbols of both good and evil in various cultures.

They also symbolize protection and good luck: Most stories and superstitions about black cats portray them as spiritual guardians. Some people believe that a black cat in your home keeps you safe and protects you from curses." - Google
